

Exceptional Care on the Magnificent Mile

Northwestern Surgical Associates is a multispecialty surgical practice that has been on the teaching faculty of Northwestern Memorial Hospital and Northwestern University's Feinberg School of Medicine for over 40 years. Our small group model allows us to focus on the individual patient whose well-being guides all decisions. Our staff prides itself on providing professional, personalized, and prompt service. Consultations are by appointment, however, urgent problems will be seen the same day.

Specialties and Interests

Northwestern Surgical Associates has clinical expertise in complex gastrointestinal disorders and cancer, breast cancer, abdominal wall hernias, bariatric surgery, colorectal surgery, robotic surgery, and surgical oncology. We preferentially utilize minimally-invasive approaches. This allows our patients to resume normal activity in the shortest time possible, while maintaining superior cosmetic, functional, and oncologic outcomes.
